GARDEN HOSES

GARDEN HOSE **PLUS**

- Four-layer hose with polyester reinforcing mesh, intended for gardening, drainage and irrigation;
- Materials: plasticized PVC;
- Reinforcement: knitted polyester yarn;
- Hose wall thickness: 1.70mm;
- Internal diameter of hose: 12.5mm;
- Maximum pressure: up to 30 bar;
- Working pressure: up to 10 bar;
- Temperature resistance: from -25 °C to +60 °C;
- Resistant to UV rays, inner layers against algae;
- Free of cadmium, barium and lead;
- Increased resistance to delamination.

Code	EAN code	Diameter	Length	Unit	Pack unit	Master carton

GARDEN HOSE **ANTI-TWIST**

- Six-layer hose with textile reinforcement resistant to twisting, intended for gardening, drainage and irrigation;
- Material: plasticized PVC;
- Reinforcement: knitted polyester yarn with textile reinforcement;
- Hose wall thickness: 2.2mm;
- Internal diameter of hose: 12.5mm;
- Maximum pressure: up to 36 bar;
- Working pressure: up to 12 bar;
- Temperature resistance: from -40 °C to +70 °C;
- UV resistant, algae resistant inner layers;
- Free of cadmium, barium and lead;
- Increased resistance to delamination and twisting.

GARDEN HOSE **SOFT**

- A very flexible four-layer garden hose with soft surface, for gardening, drainage and irrigation;
- Materials: plasticized PVC;
- Reinforcement: knitted polyester yarn;
- Hose wall thickness: 2mm;
- Internal hose diameter: 12.5mm;
- Maximum pressure: up to 30 bar;
- Working pressure: up to 10 bar;
- Temperature resistance: from -25 °C to +60 °C;
- It is resistant to UV rays, inner layers to algae;
- Free of cadmium, barium and lead;
- Increased resistance to delamination.

BCS1225	8605043412791	Ø1/2"	25m	piece	1 pcs	1 pcs

GARDEN HOSE - **BLUE**

- Garden hose, blue, for gardening, drainage and irrigation;
- Materials: non-toxic PVC, marks 77ShA;
- Working pressure: up to 3 bar;
- Temperature resistance: from -10 °C to +60 °C;
- Resistance to UV rays;
- Chemical resistance;
- It does not contain phthalate.

Code	EAN code	Diameter	Length	Unit	Pack unit	Master carton

DRIPPING HOSE

- A hose for economical and precise irrigation, saves up to 70% of water by reducing evaporation;
- Materials: rubber + PE;
- Fitting material: PP and ABS plastic;
- Hose wall thickness: 2.7mm;
- The set contains: 1 female coupling, female quick coupling with automatic water stop, male-male coupling;
- Minimum working pressure: 1 bar;
- Maximum working pressure: 3 bar;
- Temperature resistance: from -10 °C to +50 °C;
- It can be continued and placed in rows.

EXPANDABLE HOSE

- Stretchable garden hose that increases its length 3 times under the influence of pressure and returns to its original length after the water flow stops, for gardening, drainage and irrigation;
- Materials: latex / spun polyester;
- Hose length: 5m;
- Length of hose under pressure: 15m;
- Temperature resistance: from -20 °C to +60 °C;
- The set contains: a quick coupling, an adapter for a tap 1/2” and 3/4”, a water gun with 6 modes of operation and a hose of 5m;
- Working pressure: 4 bar;
- Maximum pressure: up to 12 bar;
- Resistance to twisting and UV radiation.

TRIMMER EQUIPMENT

TRIMMER HEAD TAP'N'GO
M10 x 1.25, 109mm STANDARD PLUS

- Trimmer head for mowing grass and woody growth up to 15mm thick;
- The trimmer head is suitable for various string cross-sections: round, square, triangular, pentagonal, hexagonal, star-shaped, serrated, twisted in dimensions from 1.1mm to 5mm;
- Material: polyamide;
- Diameter: Ø109mm;
- Head housing diameter: Ø107mm;
- The material for making the trimmer head is in accordance with the ISO 3146 and ISO 1183 standards;
- Suitable for trimmers with M10 head acceptance.

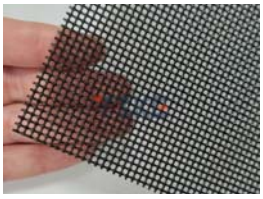
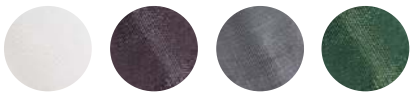
INSECT NETS

MOSQUITO NET 30m



AVAILABLE COLORS:



- Mosquito net provides insect protection and at the same time allows unhindered flow of fresh air;
- Made using a special technology, the combination of the mesh is strong enough and elastic, with an extended shelf life;
- Increased resistance to mechanical and thermal loads;
- It is ideal for different dimensions of doors and windows;
- Materials and accessories: 35% fiberglass / 65% PVC application;
- Weaving method: special technology, combination of glass thread and silicone mesh application;
- Maintenance method- washing with water.
